About the Institution

Sri Sivasubramaniya Nadar College of Engineering (SSN CE), an autonomous institution affiliated to Anna university, founded by Dr. Shiv Nadar, Chairman of HCL Technologies, is a philanthropic venture to give back to the society that nurtured him. SSN CE is accredited by NAAC with A++ grade. NBA, AICTE, New Delhi has accredited 7 UG and 4 PG programs. SSN CE is one of the top educational institutions in the country and becomes an autonomous institute in the year 2018. Some of the salient features of SSN are: ranked 45th in Engineering Category and 80th among all educational institutions in India Rankings 2023 by NIRF, MHRD; the state-of-the-art infrastructure with over 1.8 million square feet of buildings; spacious hostels, sports facilities and faculty quarters within the campus; a student body of 4300+ students, 500+ PhD scholars and 280+ faculty members.

About the Department

The Department of Chemical Engineering was started in the year 2004. An area of 5400 sqm is dedicated to our department. The department currently offers B. Tech, in Chemical Engineering, M.Tech in Environmental Science and Technology and PhD program. The department has well-established laboratories. The department promotes research in areas like Natural product extraction, Nanotechnology, green solvent, carbon dioxide sequestration, biosorption, CFD, algal biofuels etc. Many of the students actively participate in research and publish papers in reputed journals.

About IChE

Indian Institute of Chemical Engineers (IChE) is an organization of members with congregating streams from academia, industries, and research. It has been monumental in providing a platform for joint ventures among people and primarily focuses on bringing people together to work conjointly for human welfare, via the application of chemical engineering and allied courses. Numerous workshops, industrial visits, and guest lectures are conducted by the IChE-SSN Student Chapter, thus illustrating its activeness.

About RACEEE 2024

This conference promotes the major themes of modern chemical Engineering, environmental engineering and energy engineering. These fields have developed a lot in the past two decades. The research quest in these novel areas have yielded various attractive results that are beneficial for the development of humanity. Furthermore, it is concerned with finding plausible solutions in the field of public health, such as arthropod-borne diseases in urban, rural and recreational areas.

CALL FOR PAPERS

The authors are requested to submit the abstract of original research work preferably by mail (raceee2024@gmail.com) not exceeding 300 words typed in Times New Roman with 1.5-line spacing and 10 font size with the detailed communication address of the corresponding author. The abstract should provide a brief summary of the research work done including the objectives, results, conclusion and important references.
