# Indian Chemical Engineering Congress IICHe CHEMCON 2026

Proposed Theme:

“Chemical Engineering Frontiers for  
Viksit Bharat : Clean Energy, Green  
Chemicals and Circular Economy”

79<sup>th</sup> Annual Session  
of

INDIAN INSTITUTE OF CHEMICAL ENGINEERS

December 27-30, 2026

Organized by  
Indian Institute of Chemical Engineers  
Mumbai Regional Centre

Hosted By  
Institute of Chemical Technology, Mumbai  
Department of Chemical Engineering, ICT Mumbai,  
Mumbai - 400019, Maharashtra, India.

## IICHe CHEMCON 2026 in Mumbai

CHEMCON 2026, the 79<sup>th</sup> Annual Session of the Indian Institute of Chemical Engineers (IICHe), will be hosted in Mumbai, India's city of dreams and industrial powerhouse. A global hub for chemicals, manufacturing, finance, and technology, Mumbai represents scale, speed, and execution. The congress will unite India's leading minds and global experts to advance chemical engineering's role in building a Viksit Bharat.

At a time of rapid technological change and sustainability transition, CHEMCON 2026 will drive focused dialogue on research, industry solutions, and policy pathways that shape a future-ready India.

### About IICHe

The Indian Institute of Chemical Engineers (IICHe) is the country's leading professional body for chemical engineers, bringing together industry experts, academicians, researchers and students to advance the science and practice of chemical engineering. Established in 1947, IICHe operates through a wide network of regional centers and student chapters and plays a key role in fostering innovation, sustainability and professional excellence. Through conferences, technical publications and strong industry-academia engagement, IICHe promotes knowledge exchange, skill development & national progress.

### About the Organizing Institute

Established in 1933 as the University Department of Chemical Technology (UDCT), the Institute of Chemical Technology (ICT), Mumbai is one of India's most eminent institutions in chemical science and engineering. Recognized as a Deemed-to-be University in 2008, ICT has consistently demonstrated excellence in education, research, industrial collaboration, and technology commercialization across chemical engineering, and allied disciplines. Awarded Elite Status and Centre of Excellence by the Government of Maharashtra and accredited with NAAC A++ rating, ICT is globally acknowledged for developing impactful technologies adopted by industry in areas such as clean energy, waste-to-value systems, biofuels, water treatment, and sustainable process technologies.

## Mumbai Regional Centre (MRC)

Established over six decades ago, the Mumbai Regional Centre of IICHe has evolved alongside Mumbai, a city that has historically shaped India's industrial, financial, and technological trajectory. As the largest regional center in the country, representing nearly 13.3% of IICHe's national membership, MRC draws strength from a city known for scale, resilience, and execution. Positioned at the intersection of industry and academia, the Centre has consistently driven professional excellence, with its hosting of CHEMCON 2013 underscoring its ability to lead nationally significant technical forums.

### Shri. Dhirubhai Ambani Commemoration Day

Shri Dhirubhai Commemoration Day will be celebrated on December 28, 2026, as a tribute to the great visionary Shri. Dhirubhai Ambani, founder of Reliance Industries Ltd., one of the largest private sector Industries around the globe.

### Technical and Lecture Sessions

IICHe CHEMCON 2026 will cover major themes relevant to chemical engineering and allied disciplines through plenary lectures, invited talks, and oral and poster presentation sessions. All technical sessions will be chaired by eminent experts from the respective fields. Detailed guidelines for abstract submission and full paper preparation will be available on the official conference website. The proposed technical sessions include, but are not limited to, the following areas:

- **Advanced Reaction Engineering and Catalysis**
- **AI and Digital Transformation in Chemical Engineering**
- **Biochemical, Agrochemical, and Food Process Engineering**
- **Chemical Engineering for Industrial and Manufacturing Transformation**
- **Energy, Environmental, and Wastewater Engineering**
- **Green Engineering and Sustainable Development**
- **Materials, Polymers, and Nanomaterials Engineering**
- **Minerals, Metals, and Advanced Materials Processing**
- **Net-Zero Technologies and Carbon Capture Utilization**
- **Novel Separation and Membrane Technologies**
- **Nuclear, Thermal, and Conventional Power Engineering**
- **Process Systems Engineering, Control, and Automation**
- **Safety, Health, Risk Assessment, and Hazard Studies**
- **Sustainable Energy, Hydrogen, and Clean Fuels**
